

UNITED NATIONS MALAWI

COVID-19 Update

Situation Update No. 22 at 14 August 2020

- New COVID-19 guidelines gazetted on 7 August
- 4,818,599 people reached with COVID-19 messages this week
- 3,215 travellers screened at points of entry
- 225 MoH support staff oriented on screening, triage, prevention and control
- Labs are running out of GeneXpert cartilages
- Urgent support needed to install over 40 tents for storage, screening and isolation
 20% of surveyed households reported using emergency livelihood coping
 - strategies over the past month, an increase of 16%

MALAW SUMMARY

- 4 912 cases (2,207 active 160 new)
- 1 071 imported, 3 841 local transmission
- ✤ 2 550 (21 new) recovered
- ✤ 153 (1 new) deaths
- ✤ 37 746 (1 995 new) tests done
- 37 879 suspected nationally
- ✤ All 28 districts affected

GLOBAL SUMMARY

- 20 952 811 cases
- 760 235 confirmed deaths
- 13 015 397 recovered
- Cases in 216 countries and places

REGIONAL SUMMARY (Africa)

1 074 486 cases

- 24 276 confirmed deaths
- * **769 999** recovered
- All 54 countries affected

COMPREHENSIVE COVID-19 PREPAREDNESS AND RESPONSE

Disaster and Pub (MoDM/	COORDINATION Coordinated by: Ministry of Disaster Management Affairs and Public Events (MoDMAPE) and UN Resident Coordinator		New guidelines to prevent and respond to COVID-19 were gazetted by the Government on 7 August; consultations underway to build greater acceptance and ownership of the guidelines. MoDMAPE is finalizing the successor National COVID-19 Response Plan, expected to be ready by 21 August, with suppOrt from the UN cluster coordination structure A calendar of meetings, group mailing lists, a repository to store and share information and a <u>5W</u> interactive dashboard on the COVID-19 response and a financial tracking tool for the emergency appeal are available as resource tools
Ĩ	INFORMATION & COMMUNICATION	*	A total of 644,025 people were reached with COVID-19 messages through door to door, mobile van and community drama sessions and social media supported by UNICEF

Coordinated by: Ministry of Information (Mol) 818,599 people reached with COVID-19 messages this week	 3,661 persons were reached with risk communication and community engagement activities in 10 districts, supported by USAID ONSE Over 147,500 people were reached with COVID-19 infection prevention and case management messages in 18 districts through mobile vans, village cries/announcements and community dialogues, youth clubs, radio listeners' clubs and community theatre groups, supported by USAID HC4L 23,413 people were reached with COVID-19 infection prevention messages through the Moyo ndi Mpamba Facebook page and collaboration with Youth Wave Malawi (Facebook and WhatsApp)
	 Needs and Gaps Not enough resources to implement RCCE activities in all the districts There is a need for information on home care for COVID-19 to combat speculations and self-medication
 HEALTH Coordinated by: Ministry of Health (MoH) & WHO 3,215 travellers screened at points of entry 12 clinicians received case management training 225 MoH support staff oriented on screening, triage, infection prevention and control 	 Surveillance, epidemiologic investigation, rapid-response, and case investigation conducted by MoH to address reported underutilization of the 51 testing sites and concerns around limited contact tracing, shortage of test kits and lack of adherence to testing protocols, supported by UNICEF Mentorship of all laboratory staff on the usage of RT-PCR and GeneXpert provided by MoH through the Clinton Health Access initiative (CHAI), supported by UNICEF Orientation of 225 MoH support staff in Karonga, Chitipa, Salima, Chikwawa, and Mulanje on COVID-19 screening and triage, infection prevention and control, and PPE, supported by USAID ONSE Case management training for 12 clinicians in Chitipa and Mulanje, supported by USAID ONSE Testing for 874 persons and contact tracing for 272 persons in 14 districts supported by USAID ONSE 3,215 travellers screened at points of entry at Kamuzu International Airport, Karonga, Mwanza and Mangochi over the past week by Malawi Red Cross Society (MRCS), supported by UNICEF and UKAid Irish government PPE distributed to the Departments of Gender and Social Welfare, Police Victim Support Units and One Stop Centres in Mangochi and Lilongwe districts by Tithetse Nkhanza
	 Needs and Gaps Labs are running out of GeneXpert cartilages and there are none in stock at the central warehouse Expert deployment required to guide health workers as they manage patients
TRANSPORT AND LOGISTICS Coordinated by: Ministry of Transport and Works (MTW) & WFP 11,200 surgical gowns	 MoH Regional Commodity Logistics Officers conducted follow up activities with pharmacy personnel to ensure improved reporting rates for the upcoming week, supported by the GHSC-PSM project 11,200 surgical gowns procured with funds from the Health Sector Joint Fund (HSJF) for use by the Ministry of Health (MoH) frontline workers were received into the UNICEF warehouse 15 passengers supported with flights in and out of Malawi by WFP UNICEF supported with temporary storage (approximately 75m²) of COVID-19 supplies by the Logistics Cluster
procured for MoH frontline workers 15 passengers transported on international WFP flights this week	 Needs and Gaps The Logistics Cluster is severely underfunded with only 7% of required funding received, leaving a funding gap of \$1.6m for critical response interventions Urgent support needed to install over 40 tents for storage needs, screening and temporary isolation across the country requested by the Ministry of Health.
WASH	465 Malawian returnees at Machinga returnee screening centre received emergency WASH supplies and services supported by United Purpose and UNICEF
Coordinated by: Ministry of Irrigation & Water Development & UNICEF 4 million people reached with WASH related messages	 Eleven additional latrines installed at Thyolo emergency treatment unit bringing the number of emergency latrines installed to date to a total of 90 at 72 emergency treatment units, 10 border points and 8 at Machinga returnee screening centre, supported by UNICEF Over four million people were reached with WASH-related messages through radios, hand washing demonstrations at markets, communities and townships, mobile van messaging, IEC materials and newspapers supported by UNICEF through United Purpose with funding from UKAid.

	✤ 1,040 people reached with community based mental health and psychosocial
	support in Blantyre and Machinga districts supported by UNICEF
PROTECTION	Distribution of face mask at Dzaleka refugee camp is ongoing as well as
	education on social distance, jointly supported by UNHCR, MoH and MoHS
Coordinated by:	 Protection services provided to vulnerable groups including children living and/or
Ministry of Gender, Children,	working on the streets and girls that have entered marriage or become pregnant
Disability and Social Welfare	during school closure by District Social Welfare Offices with support from UNICEF
(MGCDSW), UNICEF, UN	About 50 GBV and child protection related cases were registered through the
Women	Child Helpline/ Gender Based Violence (GBV) helpline supported by UNICEF
1010	Needs and Gaps
1040 people reached with	 COVID-19 messages need to better target people living with vulnerabilities
community based mental	 Inadequate funding is still an issue; the protection cluster has a funding gap of
health & psychological support	US\$ 4.8 million
	Minimum Expenditure Basket (MEB) and Market Monitoring: Key findings from
FOOD SECURITY	the Round 7 bulletin show that current maize grain prices are trending below
	2019 levels for the second consecutive week this year.
-	COVID-19 Household-Level Food Security Monitoring: Round 2 bulletin key findings illustrate that 21% of household are surrently classified as housing
Coordinated by:	findings illustrate that 91% of household are currently classified as having acceptable food consumption. However, some 20% of surveyed households
Department of Disaster	around the country reported that they had employed emergency livelihood-
Management Affairs	based coping strategies (such as selling female animals, selling land, migrating
(DODMA) & WFP	to a new location, begging/illegal activity, etc.) within the last 30 days to access
	food, an increase of 16% from Round 1.
20% of surveyed	Malawi Vulnerability Assessment Committee (MVAC) and Infection and
households reported using	Prevention Control (IPC) analysis: The IPC analysis process—both urban and
emergency livelihood coping	rural—concluded on Sunday, August 9th. The Government/MVAC report—with
strategies	technical support from WFP—is being drafted and slated to be submitted for
	Government approval by Monday, August 15 th .
