

MINISTRY OF HEALTH

PRESS RELEASE

COVID-19 TESTING SITES

Updated 28th December 2021

To improve access to COVID-19 testing, the Ministry of Health has increased antigen testing sites to **320** across the country on top of the **15** Molecular laboratories which are performing real time Polymerase Chain Reaction (PCR) testing for COVID-19.

Please be reminded that the most common symptoms of Covid-19 include **fever, dry cough, and tiredness, while in some patients present with aches and pains, sore throat, diarrhoea, conjunctivitis, headache, loss of taste or smell, rash on the skin, or discolouration of fingers or toes.** When one has these symptoms, there is need to seek care early and have a COVID-19 test. COVID-19 testing can be assessed from the following public and private health facilities:
